

HALARA

Specifications

The Expert's view

Designed with Italian flair, HALARA, one of the very few Mangusta Oceano 43m available on the market. She is a well-proven yacht having completed five transatlantic crossings under her own power. Beautifully maintained and with excellent interior space, she has five guest staterooms including a full-beam master suite with a fold-down balcony. Her versatile layout includes features usually found on larger yachts: a beach club which doubles as a gym, a large swim platform, a spacious sundeck and a private relaxation area on the foredeck with infinity pool.

COMMENTS AND NOTEWORTHY FEATURES AT A GLANCE

The name HALARA is reserved.

Presented in excellent condition, the 43-meter (141 feet) HALARA offers a chic, contemporary and light-filled interior meticulously designed by Alberto Mancini. She includes luxurious living spaces and suites for 10 guests in five staterooms, or 12 guests if using two Pullman berths in the guest cabins.

Thanks to her superb layout HALARA feels much larger than 450 GT. On the main deck she features a full beam 46m² Owner's suite which includes an entrance lined with extra-large closets that doubles as a dressing room, his and her ensuite bathrooms and a hydraulically activated private balcony on the starboard side. The balcony, with built in pop-up rails, can be activated at the touch of a button and enjoyed in total privacy by the Owner without crew assistance.

The four guest staterooms are on the lower deck, two have queen beds and two can be converted into twin suites. All have ensuite bathrooms with showers.

Onboard, you'll discover various areas where you can unwind and relax. Both spacious salons are arranged to work as cinemas with 65" and 75" TVs. An immensely popular feature is the infinity dip pool on the foredeck which offers a totally private sunbathing area that can be used even while in port.

HALARA has a well-designed 45m² beach club equipped with a wet bar and comfortable seating overlooks the large fold-down swim platform. With the shell door open or closed, the area can double as a gym.

Designed for long voyages, HALARA has underway and zero speed stabilisers to guarantee optimal guest comfort.

KEY FEATURES

- Steel hull with bulbous bow
- Underway and zero speed stabilization
- Five transatlantic crossings on own bottom
- 4,000 nm range at 11 kns
- Proven charter potential
- Full beam 46m² master with side balcony
- 4 elegant guest staterooms sleeping up to 12 guests
- Spacious sky lounge
- Well laid out beach club with large swim platform
- Private foredeck area with infinity pool
- Spacious sundeck with al fresco dining

ACCOMMODATIONS

ACCOMMODATIONS

The accommodations onboard are comfortable and luxurious for 10 guests in 5 spacious ensuite staterooms including a full beam Owner's suite and 4 double staterooms, 2 of which have the flexibility to convert into twin staterooms if desired. Two children can be accommodated on additional Pullman berths.

On the lower deck, the double staterooms are situated on the port and starboard sides towards the aft of the ship. Each of these staterooms offers a queen-sized bed, a widescreen TV located within the mirror on the opposite wall, ample wardrobe space, and an ensuite bathroom, outfitted with a sink, toilet, and shower.

The twin staterooms are located forward of the double staterooms. In each of these staterooms, you will find two single beds, a Pullman berth, a widescreen TV located within the mirror on the opposite wall, a large wardrobe, and an ensuite bathroom complete with a sink, toilet, and shower.

LOWER DECK

On the lower deck, you will find the crew accommodation forward, followed by the guest accommodation amidships.

The engine room and engine control room are aft and the beach club is all the way aft.

The beach club has a day head with water toy inventory stowed to starboard. In the central area of the beach club, there is a wet bar and comfortable seating around a coffee table.

The transom door conveniently folds down to create a spacious swim platform and can double as a gym.

MAIN DECK

On the main deck, the tender garage is positioned forward, with the Owner's suite just behind it. There are his and her bathrooms with separate sinks and WC's with a shared shower with steam function and privacy "smartglass". The starboard side balcony is built according to class regulations.

Continuing aft are the galley, a serviceable pantry and main deck foyer with staircase access up and down.

Adjacent is a large open space with an elegant dining area, seating 10 guests, and a main salon. Both have floor to ceiling windows providing a welcoming, beautifully light area with splendid views over the water. Both port and starboard sliding doors open in the main salon creating a wonderful inside-outside area. All windows are screened to cut out any unwanted glare.

The comfortable L-shaped sofa and armchairs surrounding a coffee table are strategically positioned for viewing a 65" widescreen TV on the aft starboard diagonal wall which discreetly merges into the wenge panelling when off.

The main deck aft offers a tranquil area to relax. Furnished with a comfortable sofa, coffee table, and two armchairs, it creates a casual and inviting space to unwind in the shade. With double staircases leading to the swim platform and side decks connecting to the foredeck sunbathing and pool area, easy access to outdoor activities is guaranteed.

BRIDGE DECK

The foredeck provides a cozy seating area with drinks tables, positioned in front of the bridge. Forward there are sunbeds and the infinity pool on the bow.

The Captain's cabin is aft of the wheelhouse to starboard with a day head further aft.

The full beam sky lounge which doubles as a cinema with a 75" TV is further aft.

The outside dining area for 10 around the table has a bar adjacent to port and staircase access down to the main deck aft or sundeck above.

SUN DECK

The sundeck is designed for comfort and entertainment. Sun loungers line the stern, and amidships there is a sheltered conversation area with two sofas and a coffee table. A 2-way widescreen TV pops up from the cabinetry splitting the relaxation and dining areas. The large dining table seats 10. Forward, a well-appointed wet bar with four stools offers wonderful views over the water.

CREW ACCOMMODATION

9 crew sleep in 5 cabins. There are four upper and lower crew cabins below forward, each with ensuites and showers and the Captain's cabin on bridge deck.
